**Feed Back Anyalysis and Action Taken Report**  
**2020-21**

The college has established Feedback and SWOC analysis committee. The committee member collects the students' feedback about teaching learning process and infrastructural facilities in the college. Then the committee analyzes the student's feedback and the prepared the report and it is submitted to the Principal through the IQAC. The student's feedback of a particular teacher or department is considered in their departmental meeting. The students' feedback about infrastructural facilities is used while developing new infrastructure or providing other services. The students' feedback was collected and analyzed during the academic year 2020-21. The participant students' randomly selected (N 538 students).

**Students' feedback about Teacher:**

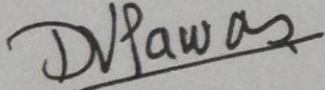

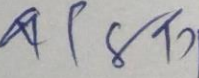

Most of the students' had appreciated the efforts made by the teachers. The teachers' teaching methodology and positive approach towards students' is highly satisfactory 91.80 students' reported as a satisfactory one but 9.20 students' were less satisfied with teachers teaching methodology. Majority of students' reported that teachers were punctual, responsible, sincere, expert in their subject as well as uses ICT in teaching and learning. The teachers' delivers lectures with prior and proper preparation and they motivate students' to ask doubts and queries about the topic. Some students' have given suggestions for teaching faculty which includes to pay more attention towards the understanding of the topic taught to students' in the class. The teacher should help students' out of the class and provide information about recent trends in their subjects.

Students' feedback about Infrastructural

**Facilities :** Students' feedback about infrastructural facilities is based on randomly selected 50 students. Majority of students (86.1) reported satisfactory remarks about infrastructural facilities made available to them in the college. Some of the suggestions received from them were listed below: **a) Office:** Students should get information and guidance related to online and office services. **b) Library:** Students' have demanded more books of competitive examination . **c) Gymnasium:** They have also demanded more facilities and proper guidance regarding Gym. and Sports. **d) Basic Infrastructural Facilities:** Students are Satisfied with the basic infrastructural facilities.

**Action Taken:**

The institute collected 80% (Feedback of students on Teachers) reports from the Pachwad by sample random method. After the filling the forms, the analysis of the feedback on teacher is prepared through google. The Feedback committee understands the percentage of the filled forms of each student on teacher. Then the committee conducted a meeting of the faculty under the guidance of the Principal and communicated the compliances to concern faculty, department and the difficulties of the students. The committee has suggested them what new steps should be taken in case of teaching learning as well as teaching methods and its improvement. Principal guided to all the faculties about the difficulties and how to solve the problems of the students. Each faculty has agreed to the opinions of the Principal and the Feedback Committee.
